RESUME 2022

HARSHA DEVARAJ   harshasdevaraj@gmail.com   +1(734)-649-7854   MI,USA

Education & Certifications:

Google Data Analytics Certificate - *Google/Coursera, 2022*
Master's in Environmental Humanities - *Rhode Island School of Design, 2022*
Bachelor's in Art & Design - *University of Michigan, 2019*

Tools:

MS Excel	Google Suite	SQL	Tableau	Python	R	Photoshop

Top Skills:

Research & Analysis

My background in Humanities research helps me dig deep and find the *'why'* behind the data. I am good at breaking down abstract problems into tangible steps, and finding connections that others might miss. My interdisciplinary background means that I seek out opportunities for collaboration readily - not just as a last resort.

Aesthetics & Storytelling

I am a multimedia artist, a strong technical+creative writer, and a confident public speaker. My combination of skills allows me to shape any data project into a compelling narrative - from its initial conception to the presentation of its final recommendations.

Experience:

Research Fellow, RISD/Hyundai Motor Group - Aug 2021-Aug 2022
Selected among a pool of RISD candidates to work with HMG on emerging mobility systems. During the project, I studied urban design and mobility history in the USA, and developed the theory of *'bumpability'* - a sustainable philosophy for the future of personal transit technology.

Guest Lecturer, University of Michigan - Jun 2022-Jul 2022
I developed asynchronous online pedagogy, led virtual class discussions, and assessed student work at the UM School of Art & Design.

Gallery Assistant, Stamps Gallery - Apr 2019-Apr 2020
I developed and implemented public programs - brainstorming events, writing copy, and leading activities and tours. I was involved in data logging and maintenance for the Gallery and its exhibitions, the planning of various programs, and served as the face of the Gallery to visitors.
